

CHAROTAR UNIVERSITY OF SCIENCE AND TECHNOLOGY

Faculty of Technology and Engineering — CSPIT-IT
ITUE301 — Advanced Web Development Frameworks
Open-Book Practical Examination — SET A

Student Roll No: 24CSE001-A	Tech Stack: React + Express + MongoDB
System Name: MedCare Plus Hospital System	Date: August 20, 2026

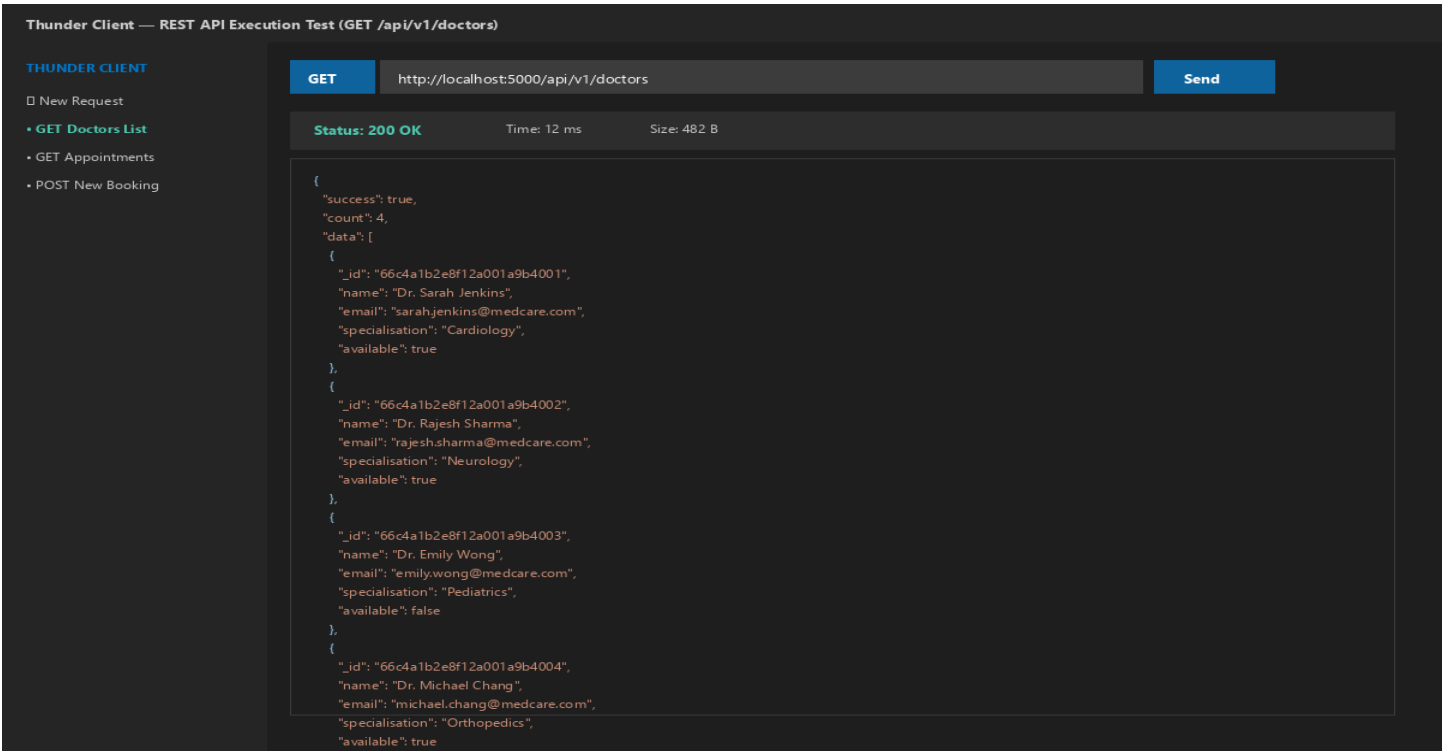

Screenshot 1 — React Application

Demonstrates the Hospital Appointment System running in the browser (React frontend on `http://localhost:5173`), featuring navigation, dashboard stats, and status-styled appointment cards.

Screenshot 2 — REST API Execution

Demonstrates a successful REST API request to the Express backend (GET http://localhost:5000/api/v1/doctors) with a 200 OK status code and structured JSON output.

Screenshot 3 — MongoDB Compass Database & Documents

Demonstrates MongoDB Compass displaying the hospital_system database, the appointments collection, and document schema validations.
